**Senior Parking Design Request**

The design must fit within the parking space dimensions, 4 inches from white lines on each side. Do not paint over the number in your parking spot.

Draw your design below in color to represent exactly what you will be painting.

Explain here what this design represents or means:

### **ON THE PAINTING DAYS:**

Show up on time! It will be hot and you want to be painting early.

What you need:

- your paint
- your copy of your approved design – so you will have your approved template to follow. You must follow this design exactly – no changes allowed.
- a broom to sweep off your spot before painting. (A battery-powered leaf blower works even better)
- paintbrushes, rollers, paint trays (rollers for “rough surface” work best)
- a blanket or cardboard to kneel/sit on while painting. The pavement is hot!
- Shade structure will be helpful
- Lots of water and Gatorade/sports drink

School will provide:

- Tarp to put under paint supplies
- Garbage bags for cleanup
- Tape to mark off space

- **Step 1:** Check in with the school supervisor and get your paint approved.
- **Step 2:** Clean off your space and tape the edges to mark 4 inches from white lines
- **Step 3:** Paint your spot
- **Step 4:** Clean up. Place all garbage in garbage bags, tie them shut, and drop them in the dumpsters as you exit campus. Leftover paint or supplies you want to re-use will be placed in garbage bags and taken home to be cleaned. There is no hose or washing station available at the school for cleanup.
