Application Deadlines

- The **senior valedictorian** is the recipient of the highest honor that the Academy can confer upon a student. The valedictorian is selected at the beginning of May by the assembled faculty.
- **Academic GPA** through the senior year among students who have been at the school since at least the beginning of 10th grade is the primary criterion for selecting the valedictorian.
- **Personal conduct and positive participation in the school's culture and activities are also considered**; negative facts (such as a serious act of misconduct, especially academic dishonesty, at any point in a student's record) may be considered as disqualifying.
- **The faculty reserves the right to not award the top academic student if the faculty determines that another high-level academic student stands as a considerably better character example to the community.**
- It is possible for co-valedictorians to be selected. The faculty may also select a salutatorian from the senior class, a student of high distinction beneath the valedictorian.
