Enrichment Courses are additional opportunities for students to receive instruction from the Academy's faculty outside of the ordinary time of the school day. While the exact meeting time(s) may vary and the exact content of each course may change from semester to semester, the menu of enrichment courses that a school offers are from a fixed list that our network can best support, supervise, and continually improve. All enrichment courses have attendance requirements and culminate with a final project/deliverable at the end of the semester.

It is important to continue to set forth new approaches which allow for the management and safety of students while on campus. For all extra-curricular activities, students should be picked up at the time the extra-curricular activity ends. Siblings are not allowed to be on campus during extra-curricular activity times unless they are also registered in an extracurricular activity. As the school office closes at 3:30pm, they will not be able to assist after that time. The Academy encourages parents to schedule ahead of time if it is known that a student needs to be picked up early. If school is not in session or it is a half day, student's extra-curricular activity will not take place. Participation in school extracurricular activities, both athletic and non-athletic, is a privilege and not a right.

Students can be suspended from extracurricular activities for academic or behavioral reasons at any time by decision of the coach, the Athletic Director, or the school administration. To be eligible for extracurricular activities at the Academy, the student must maintain passing grades in all subjects and must have displayed good behavior. If a student fails any course in a quarter, they may be suspended from all Academy extracurricular activities for the following quarter. If a student is currently deficient in a course, they may not be allowed to leave campus early, when this occasionally occurs for games or enrichment courses. If a student has demonstrated a commitment to academics (as evidenced by homework completion, test/quiz scores, attendance at tutoring, participation, and sense of wonder in and out of the classroom) and is currently passing all courses, they may regain their eligibility for participation in extra-curricular activities. However, such a student stays on probation for the remainder of the quarter and is subject to a grade check every two weeks.

Fees for various activities the Academy offers beyond the classroom are required. The Academy never seeks to profit from any of the special services it offers. Fees are only meant to assist with services that are not directly funded by monies from the state. The fee must be paid prior to the student joining the extracurricular program. In case of financial hardship, please contact Jodi Bradshaw. Paid fees enroll students for the duration of the activity and cannot be refunded. No discount will be given if a student joins later in the school year.

Minimum enrollment for all courses is 8 unless otherwise noted. Maximum enrollment varies. For courses with a maximum enrollment, waitlists will be maintained.

Courses may be canceled (before their start date) if a minimum enrollment is not met, in which case a refund will be issued to those already registered. There will be no refunds for courses once meetings are underway.

Enrichment courses specified as year-long commitments do not re-open for spring enrollment; semester courses may re-open for registration in the spring on a first-come, first-served basis. All those who were enrolled in fall semester courses must re-enroll in order to continue participating in semester courses.

For questions, please email Jodi Bradshaw at jbradshaw@triviumprep.org.

The Trivium Preparatory speech and debate program was founded with the goal of creating a program that teaches ethical communication skills to Trivium students in a way that would make them competitive with anyone from any school in the United States. It is the belief that the development of speech, and the practice of debate, produces educators, doctors, lawyers, accountants and, most importantly, leaders.

Students will develop the art of persuasive speaking, critical thinking, and confident communication through two popular competitive formats: Public Forum Debate and Lincoln-Douglas Debate. Participants will learn how to research complex topics, construct compelling arguments, and respond effectively under pressure while simultaneously refining their public speaking skills.

Speech and debate is one of the most underrated yet powerful enrichment opportunities, offering benefits that go far beyond the classroom. Students gain invaluable skills in leadership, teamwork, and active listening while building confidence that serves them in academics, future careers, and everyday life. Whether you're new to debate or looking to sharpen your skills, this course offers a supportive environment to grow as a speaker, thinker, and competitor.
